Timmy Scurry

Toronto, ON | 819-743-8002 | scurrytimmy@gmail.com | www.tscurry.dev

Web Developer with over a year of experience in creating responsive, user-friendly, and well-designed web applications. Known for developing user-centric solutions with a passion for staying updated with the latest technologies. Comprehensive project-based experience with technologies including JavaScript, React.js, Node.js, Express.js & RESTful APIs. Eager to apply my skills and commitment to hard work, and confident in my ability to meet any development challenges to enhance user experience and fulfill business needs.

Project Experience

Readd-it

● Designed a functional Reddit clone using React.js, Redux and Reddit's JSON API, offering users a streamlined, interactive experience with features such as comment viewing, subreddit post interaction, keyword-based subreddit post search and voting functionality.

● Managed state with Redux Toolkit, facilitating effective asynchronous actions.

Dadli Country Club

● Developed a responsive website using HTML, CSS and JavaScript, showcasing versatility in foundational web development languages

Transferable Skills

Problem Solving, Communication, Organization, Analysis, Interpersonal Abilities, Time Management

Technical Skills

HTML, CSS, JavaScript, React.js, Redux, MongoDB, Express.js, Node.js, Git, RESTful APIs, PostgreSQL, Figma, Tailwind

Professional Development

● Currently enhancing my development skills by learning Next.js, an important framework for server-side rendering and generating static websites for React-based web applications.

Education/Training/Certifications

Diploma in Electronics Engineering, Seneca College of Applied Arts & Technology
